Advantage series
RAISED PANEL

Advantage Insulated Steel Garage Doors

For homeowners or home builders who want the classic look of raised panel doors, the insulation value of a stable polystyrene core, and the strength and practicality of pre-finished steel, General Doors offers the Advantage Raised Panel line.

- Sandwich-type construction with 1-3/8" polystyrene insulation, pressure bonded between two skins of 26 gauge G60 steel
- Steel is rust-proofed with hot-dipped galvanizing, pre-painted on both sides with a primer, and finished with a top coat of baked on polyester for an exterior paint thickness of 1.0 mil
- Three layer construction provides a calculated insulation value of R-6.7, along with exceptional strength and a substantial, solid feel during operation
- Finely detailed woodgrain surface with deeply embossed panels for a sharp, well-designed appearance
- Raised panel sizes of appropriate proportions and spacing ensure all door sizes have an authentic raised panel look.
- Also available in a Flush Panel design
- Double Tongue and Groove section joint for the tightest section fit possible
- Thermal break between steel skins
- 4 factory finish colors to choose from

Hardware includes heavy-duty track with a unique elliptical curve that reduces the force necessary to roll the door along the track, making opening and closing easier and smoother. Full leaf, heavy gauge hinges, and rollers with steel bearings offer superior strength and years of trouble-free operation.

Sizes

Standard widths:

8', 9', 10', 12', 16' and 18'

Special order widths are available in 1" increments

Standard heights:

6'6", 7', 7'6", and 8'

Number of Panels Across

Width	Panels

Details distinguish well designed doors from ordinary doors

Color Options

Our Advantage is available in four color choices. Although doors should not need repainting, if a custom color is required, our paint system provides an excellent base for any field applied paint.

White

Almond

Brown

Sandtone

Here's why we can offer a "Lifetime Rust-Through Warranty"

A standard feature of the Advantage is our tough, anti-corrosion protection - inside and out.

Baked-on Polyester Top Coat

Primer Coat

Hot-dipped Zinc Coat (Galvanized)

Base Steel

Window Options

Garage door windows have a great deal to do with the overall look of any garage door. General Doors' Advantage doors up to 10' wide are available with either two windows (long panel) or four windows (short panel), plus several distinctive design trim styles that work with a variety of architecture. Wider doors have different layouts. Color matched frames and design trim inserts that snap-in and snap-out for easy glass cleaning are standard. Advantage windows are either single or insulated glass.
